Prerecording

A *title proper* does not include:

- Manifestation: [other title information](#)
- Manifestation: [parallel other title information](#)

A file name or data set name is not considered a *title proper* unless it is the only title appearing in the manifestation.

Recording

Record this element as a value of Nomen: [nomen string](#) or as an instance of a [Nomen](#).

For a variation in a value of this element that is associated with a unit or iteration of a manifestation that embodies a *diachronic work*, see [Guidance: Resource description. Describing a manifestation. Describing a manifestation of a diachronic work](#).

Recording an unstructured description

OPTION

Record a value of Manifestation: [title of manifestation](#).

Example

OPTION

Record a Manifestation: [note on manifestation](#) on the source or basis for a value of a title proper.

LC-PCC

[Send to Back](#)

LC/PCC Core.

LC/PCC practice: In most cases, record the title proper in such a way that definite and indefinite articles at the beginning of the title proper are disregarded for sorting and filing purposes. However, do not disregard certain articles

1. When the title proper begins with an article that appears as part of a Person: [name of person](#). Family name of family. Place:

LC-PCC

[Send to Back](#)

LC/PCC practice: Apply the option.

Module 2: New Concepts

Nomen

FRAD “Name Entity”: A character, word, or group of words and/or characters by which an entity is known

FRSAD “Nomen”: “any sign or sequence of signs (alphanumeric characters, symbols, sound, etc.) that a thema is known by, referred to, or addressed as.

IFLA-LRM “Nomen”: An association between an entity and a designation that refers to it

RDA “Nomen”: A label for any RDA entity except a nomen. A nomen includes a name, title, access point, or identifier.

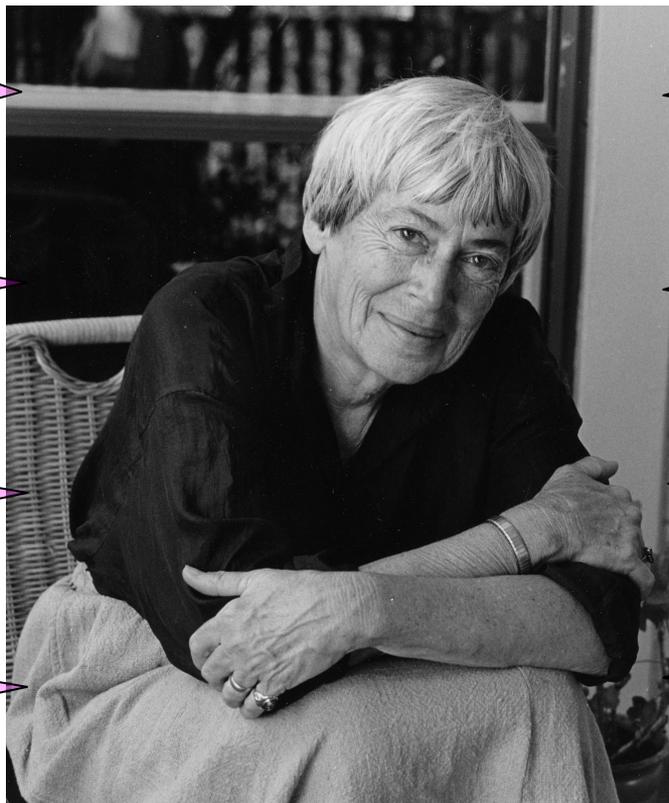

Nomen and Nomen Strings

Nomen A
Le Guin, Ursula K., 1929-2018

Nomen B
LeGuin, Ursula, 1929-2018

Nomen C
Kroeber, Ursula, 1929-2018

Nomen D
Ле Гуин, Урсула, 1929-2018

Nomen E

Prerecording

Given at the beginning of each Entity and Data element

Prerecording

A title may be categorized as:

- Work: [preferred title of work](#) →
- Work: [variant title of work](#) →

A title not chosen as a preferred title may be recorded as a variant title.

A title may consist of a characterizing word or phrase.

Prerecording

The [RDA Carrier Type](#) → *vocabulary encoding scheme* is derived from the [RDA/ONIX framework for resource categorization \[PDF\]](#).

For general guidance on carrier and content categories, see Guidance: [Content and carrier](#) →.

A significant difference in a value of this element or an *element subtype*, if any, may indicate a boundary of the entity that requires the recording of a new instance of the entity.

For guidance and instructions on the criteria that are used to determine that a manifestation is distinct from other manifestations, see [Manifestation. Entity boundary](#) →.

Module 3: Data Elements

Data Elements

One page for each Data Element.

Identified by the Entity

Minimum description

A minimum description of a manifestation must include one of the following elements:

- Manifestation: **appellation of manifestation** → 
- or Manifestation: **title of manifestation** → 
- or Manifestation: **title proper** → 
- or Manifestation: **access point for manifestation** → 
- or Manifestation: **authorized access point for manifestation** → 
- or Manifestation: **identifier for manifestation** →
